**Student Statement**

*I want to be the 2018 Alumnus Trustee because I believe that Camden County College has changed my life and I want to help other students have the same amazing experiences that I had. Camden County College has allowed me to accomplish my goal of attaining an Associate’s Degree in two years. Prior to attending, I felt this goal would be impossible to achieve because of the financial hardship and conflict with my work schedule but with assistance from the financial aid office and the academic advisors I was able to accomplish my goal. They were there for me to turn to every step of the way, they even helped me create a plan so I knew what to expect out of my two years here. I believe that every student has the ability to succeed with the resources and opportunities available on campus. As Alumnus Trustee, I would be eager to assist in the creation of more opportunities for students on campus such as clubs and activities that help build a stronger community. I would also want to understand more about the problems current students are facing and help create a better learning environment for them. Camden County College allows many students to achieve goals they never believed were possible and I would be honored to have a role in enriching their experience here.*

**Nominator – Jennifer Hoheisel, Professor and Honors Program Director**

The reason I am confident that Khyia would also be a dedicated trustee is that in addition to demonstrating her preparation for class, she has never missed or even been late to a single meeting. She organizes her time and responsibilities very well. I have no doubt that if selected; she would take the commitment seriously and come to the Board meetings well prepared.
