Students Encouraged to Join Campus Clubs to Enrich College Life

By HARRY SCHONLEBER '16
Campus Press Writer

Starting or returning to college is an exciting time in our lives that gives us an opportunity to make new friends and to better ourselves, as well as the lives of others. The many clubs and organizations here at Camden County College give students with similar interests the chance to engage and promote ideas big and small.

Take this opportunity to make your college experience as enjoyable and fruitful as possible. Join one of the numerous existing clubs or perhaps even consider banding together with others to start a new club, perhaps of a political nature or one focusing on social responsibility or bettering the lives of a segment society that is disadvantaged or marginalized, or maybe even a club whose only purpose is to have fun!

Clubs Offer Endless Opportunities

The possibilities are endless, but before you know it, your college experience will be over and you might wish that you had tried out being a radio station disc jockey or newspaper columnist. Now's the time!

At Camden County College, your opportunities are numerous. Do you want to write for the Campus Press? Sign up and get involved with journalism and reporting, even if it isn't your major. **To join a club or organization: Contact the Office of Student Life and Activities in the College Community Center, Room 200, ext. 5088 or ext. 4282.**

Public Service Announcement

College Offering Day of Free Dental Cleanings, Screenings for Local Children, February 2

Camden County College's dental hygiene and dental assisting students and staff will provide free cleanings and other dental care along with dental education services to area children aged 12 and younger for "Give Kids a Smile!" Day on February 2, 2018, from 9 a.m. to 4 p.m.

February is National Children's Dental Health Month

February is National Children's Dental Health Month, and "Give Kids A Smile!" Day is the perfect way to focus on the needs of children, says CCC Coordinator Jean Corbi.

Also known as National Children's Dental Access Day, this public health project aims to provide a day of preventive dental care and education to youngsters who would otherwise not have access to such services.

Camden County College is one of more than 80 facilities throughout the state that will be participating in this project in association with the New Jersey Dental Association. All services delivered on-campus that day will be overseen by Dr. Catherine Boos, who is a licensed dentist and the director of the college's dental programs.

Dental Hygiene Clinic Located in Halpern Hall

"Give Kids A Smile!" Day will be conducted in CCC's Dental Hygiene Clinic. This facility is located on the first floor of the Halpern Science Building on the college's Blackwood Campus on College Drive in Gloucester Township.

Services will be provided by appointment

only. To schedule an appointment, call (856) 227-7200, ext. 4631. To access the forms that are needed to participate, visit the New Jersey Dental Association Web site at www.njda.org/gkas.

For information about the event, contact coordinator Jean Corbi at (856) 227-7200, ext. 4729, or jcorbi@camdencc.edu.

For directions to the college, visit camdencc.edu/directions/.

COLUMN: Heart Facts For February...Heart Health Awareness Month

BY GINA ANDREWS
Campus Press Columnist

As you probably already know, February is also Heart Health Awareness Month. A long time ago, someone thought, "Instead of encouraging others to eat better and exercise more, let's make it a trend to make people wear red for 28 days a year."

So, for this month, here are some interesting heart facts.

- An octopus has three hearts. You know, sort of like Zoidberg from Futurama. I never thought I would say this, but here goes: Zoidberg and an octopus>a Time Lord.
- A healthy human heart is strong enough to lift over 2,000lbs.
- When you gain one pound of fat, your body creates an additional seven miles of blood vessels. With that in mind, you can see why

obesity and heart disease are such close cousins. A lot of weight=a lot of extra blood vessels. Fortunately, when you lose weight, your body also absorbs the extra blood vessels. If you gain a little over fourteen pounds, you will have created an additional 100 miles of blood vessels.

American
Heart
Association®

Note: For heart and health questions and concerns, contact your medical physician or the American Heart Association.

- A slow job is actually not good for your heart. When you are sitting still for long periods of time, you maintain a consistent heart rate, which sounds like a good thing. The problem here is that if there is a situation that suddenly requires you to move quickly, your heart is not prepared.
- Not to alarm you, but using alarm clocks are bad for your heart. I know, I know. We need alarm clocks, and we all use them, whether it's a real one or your phone, as I use. Unfortunately, waking up abruptly adversely affects your heart rate and blood pressure.

Join the Campus Press Staff, or Be a News Contributor

Have you got the slightest want or need to share your creativity and opinion?

Self-expression, accuracy, and community involvement are valued deeply by Camden County College's own newspaper, The Campus Press.

Whether you're a communications major who wants to build a portfolio or simply have an interest in attending and reporting local news, we are waiting for you.

If you have a compelling angle on any sort of sports, we'd love to hear it! If you've got a hit on any local, national, or global news, speak up and be heard. If you have an interest in photography, fill in the imaginations of your readers with your own visuals. Whether your expertise is in writing articles, gathering important or hot news, recording special events or expressing your own opinions through the visual arts, or interviewing and reporting on the latest cries of the school and county, The Campus Press is where you should be!

By Campus Press News Staff

The Campus Press Editorial Office

Blackwood Campus
Community Center, Room 106
Monday, Wednesday, Friday
10:00 a.m. – 11:30 a.m.*
(*Except during production week)

Whether you're a communications major who wants to build a portfolio or simply have an interest in attending and reporting local news, we are waiting for you.

Share Your Perspective and Voice

Make friends, find similar passions, and collaborate on topics. Share a part of your style with your fellow students by creating a fashion column. Give your opinions by submitting an old essay.

Why you should consider joining or writing for a college newspaper organization:

- WRITE ABOUT WHAT'S OF INTEREST TO YOU, OR THE ISSUES AND TRENDS IN YOUR COLLEGE MAJOR OR ON CAMPUS.

- EXPRESS AN OPINION OR OBSERVATION...BECOME PART OF OUR RADIO BROADCAST NEWS TEAM.
- THERE'S THAT INTERESTING COURSE PAPER YOU CAN TWEAK INTO A NEWS ARTICLE OR HUMAN INTEREST COLUMN.
- REPORT ON WHAT'S HAPPENING IN YOUR STUDENT CLUB OR ORGANIZATION.
- SHARE YOUR POETRY, SHORT ESSAY OR HOBBY!
- DOES EDITING, PROOFREADING, BUSINESS, PHOTOGRAPHY OR SPORTS INTEREST YOU?

FACT: When you join a college newspaper staff you and your obvious communication (e.g., writing, speaking, reading, reporting, research and investigative) skills set you apart from other four-year college and employment applicants!

It's up to you; at the Campus Press you will be warmly welcomed and immensely appreciated for your perspective and voice.

Journalism is an art. **Be an artist. Join CCC's Campus Press.**

The Campus Press meets in room 106 in the Community Center, on the Blackwood Campus. The Camden Campus and Rohrer Center students should find it easy to always be involved by e-mail. For more information, contact us at:

campuspress@camdencc.edu.

We look forward to hearing from you!

Narcan Training

The United States is experiencing an opioid epidemic. There is an antidote for opioid overdose called Narcan which is now available to those struggling with addiction. This can be administered by anyone who has been trained.

Urban Treatment Centers and the Camden County Board of Freeholders Addiction Awareness Task Force is providing free, 2-hour trainings open to the public on specific dates and times during the 2018 calendar year. Upon successful completion of the training, participants will be provided with a free Narcan kit to take home for personal use.

For more information or to reserve a spot at an upcoming training, please use this link:

https://s3.amazonaws.com/nixle/uploads/pub_media/user43018-1513706409-media1. This is available to all Camden County College employees and students, as well as friends and family of employees and students; you are encouraged to share the link. **The next training is February 6, 2018.**

CCC Offers Free Shuttle Service Between Blackwood and Camden, Starting Jan. 17

Students at Camden County College will soon be able to take advantage of a free shuttle service that will operate between the Gloucester Township and Camden campuses, county officials have announced.

CCC Students Suggested Shuttle

The service was the brainchild of student Hecmarie Berrios, a Camden resident who found it challenging to reach the Gloucester Township campus. Most of the nursing student's classes are in Camden City, but she also needs access to the Blackwood campus. So she started a petition. After gathering 300 signatures, she presented her petition to the college, and her idea became a reality.

"Part of our mission at Camden County College is to be responsive to the needs of the community. We continuously enhance our programs and services to meet these needs," Camden County College President Don Borden said.

He added: "It is our job to provide opportunities and reduce barriers for students. But when we can show students that their actions and hard work can make an impact, that is when we are truly doing our job as an institution."

Shuttle Service a Joint Partnership

The shuttle comes courtesy of a partnership between the college, the county and the South Jersey Transportation Authority. It will run Monday through Friday, 7 a.m. to 4 p.m., beginning Jan. 17.

Camden County College is one of the largest community colleges in New Jersey and ranks among the top 100 nationwide in terms of associate degree graduates. It is recognized nationally as a leader in technology programs such as video game design/development and photonics. It has also been acknowledged for maintaining one of the lowest tuition rates of any college or university in the state or region.

The college is known for responding to the changing needs of the communities and students it serves by continuously updating its programs and services to support the area's economic development and residents' professional and personal development.

Tutoring Center

camdencc.edu/tutoring

The Camden County College Tutoring Center is located on the lower level of the Taft Building and offers the following services:

- Preparing for Tests
- Homework
- Study Tools
- Study Groups
- Peer Tutoring

The Tutoring Center is open to all currently registered students and there is no additional fee for tutoring services. The Tutoring Center is not just for students who are falling behind we are here as a service to all students.

Please feel free to contact me with any questions and please stop by the Tutoring Center anytime for help.

February: In Celebration of Black History Month

Edited By HARRY SCHONLEBER '16
Campus Press Staff Alumnus

The Father of Black History Month, Carter G. Woodson, was born in 1875 near New Canton, Virginia. He was the son of former slaves. In 1907, he obtained his bachelor of arts degree from the University of Chicago. In 1912, he received his Ph.D. from Harvard University.

In 1915, he and friends established the Association for the Study of Negro Life and History. A year later, the *Journal of Negro History*, began quarterly publication. In 1926, Woodson proposed and launched the annual February observance of Negro History Week, which became Black History Month in 1976.

Dr. Carter Goodwin Woodson (1875-1950) was a historian and founder of *Black History Week* that evolved into *Black History Month*, February, for the celebration of the history and achievements Black people and persons of African descent.

It is said that he chose February for the observance because February 12th was the birthday of President Abraham Lincoln, the so-called Great Emancipator and February 14th was the birthday of Frederick Douglass, a noted abolitionist and one of the first heroes of the Civil Rights Movement.

Dr. Woodson was the founder of Associated Publishers, the founder and editor of the *Negro History Bulletin*, and the author of more than 30 books. His best known publication is *The Mis-Education of the Negro*, originally published in 1933 and still pertinent today.

Poetry Corner

By Audrey Mancini

These days pass like clockwork
The sand still swelling up my eyes
Why can't I open up my mind to it all
I'm stuck in this loop

You're still alive
I don't know why I'm surprised
I thought the salt would drown you out
But I know it'll all be fine

My mind is restless
My hands dry
Now not only my eyes are covered
But the rest of my kind
Body and soul covered in sand
I'm trying to break free
but everything is closing in on me

I need to let the ocean wash up
And cleanse me from the sand
While the salt washes over me
You're all over me
Let me leave the shore
You can finally go back to sea
Please stop waiting for me

I don't think there's much for me anymore
You stabbed me in the back
Ripped right through to my core

And yet you're still standing in front of me
How can I love you
How can I look into your eyes
When you're still holding the knife

It's so hard to ignore
I've fought so hard to save this
Just to have it end in an uproar
Screaming at one another
Why can't it end
Just drop the act
And go back to your ex girlfriend

Don't expect me to stay
When you come crying at my door
Begging me to let you in
"Oh baby I love you, I'll sleep on the floor"
You're throwing this all away
I'm ripping out the knife you lodged in my back
I'm moving on with my life
Don't try to come back.

Graphic: Nintendo — Super Mario Odyssey

VIDEO GAME REVIEW: Super Mario Odyssey

By Alexander McGINNIS
Campus Press Guest Writer

With the critically acclaimed Breath of the Wild released alongside the Switch back in March, 2017 was a great year for Nintendo.

Franchise's Newest Game

Super Mario Odyssey, the newest installment in the Mario franchise proves to be no exception to the company's streak of outstanding games. Odyssey follows a similar storyline to past games, except now Mario must team up with Cappy, a new partner in search of his lost sister, in order to save Princess Peach from Bowser's wedding.

Mario Throws His Hat

The game takes the formula from past games like Galaxy and innovates with them to create more open world environments that emphasize exploration as well as platforming. The biggest addition to this title is the capture ability, which allows Mario to throw his hat onto enemies and take control of their abilities.

Ton of New Discoveries

Capturing enemies opens up more possibilities as you can take control of Goombas, tanks, and even a T-rex. There are a vast amount of kingdoms to explore, with plenty of things to see and do in each one. Power moons are used to unlock new areas of each kingdom and progress from one level to the next, which there are a ton to discover.

Evolution of Super Mario

The main story is fairly long, however, the hundreds of power moons and challenging post game content will have you coming back for more. Super Mario Odyssey feels like a true evolution of the formula from older games and leaves you with a fantastic game that all Switch owners must experience.

Rating: 5/5 Stars

February...Heart Health Awareness Month

College Service Announcement

Continued from Page 1

- If a pregnant woman suffers damage to an organ (such as a heart attack) the fetus will actually send stem cells to repair the damaged organ. In other words, you may have saved your mother's life.
- Cancer occurs when diseased, unhealthy cells multiply and divide at an uncontrollable rate. Heart cancer can occur but is very rare. The reason for this is because heart cells don't divide and reproduce in an adult body, like cells of some other parts of the body. In fact, most of the division of heart cells occurs when you are a fetus.
- The mammal with the largest heart is the blue whale. The mammal with the smallest heart is a species known as "politicians." Kidding. The mammal with the smallest heart is the Etruscan Shrew.
- In a developing fetus, the heart is the first organ to form and starts beating before your brain even forms.
- The record holder for most weight lost by a woman is Rosalie Bradford. At her heaviest, she weighed 1,199 lbs. She worked with Richard Simmons, who helped her lose over 900 lbs. In case you're keeping track and remembered the fourth fact I listed, that's over 6,300 miles of blood vessels.
- As gruesome as this sounds, your heart can continue to beat when separated from your body, as long as it has access to oxygen.
- An average human heart weighs about the same as a can of Campbell's Tomato Soup.

Happy Single's Awareness Day, everyone!

January 15, 2018 MLK Day of Service

KEEPING THE DREAM ALIVE BY HELPING OTHERS — Hundreds of thousands of persons across the nation and around the world honored the legacy and memory of slain Civil Rights Leader Dr. Martin Luther King, Jr., by serving as volunteers in various community uplift campaigns and projects.

Martin Luther King, Jr. (January 15, 1929 – April 4, 1968) was an American clergyman, activist, and prominent leader in the African American Civil Rights Movement.

Dr. King is best known for being an iconic figure in the advancement of civil rights in the United States and around the world, using nonviolent methods following the teachings of Mahatma Gandhi. Dr. King is often presented as a heroic leader in the history of modern American liberalism.

King Leads Change

A Baptist minister, The Rev. Dr. King became a civil rights activist early in his career. He led the 1955 Montgomery Bus Boycott and helped found the Southern Christian Leadership Conference in 1957, serving as its first president. Dr. King's efforts led to the 1963 March on Washington, where Dr. King delivered his now famous "I Have a Dream" speech. There, he expanded American values to include the vision of a color-blind society, and established his reputation as one of the greatest orators in American history.

King Receives Nobel Peace Prize

In 1964, Dr. King, at age 34, became the youngest person to receive the Nobel Peace Prize for his work to end racial segregation and racial discrimination through civil disobedience and other nonviolent means. By the time of his death in 1968, he had refocused his efforts on ending poverty and stopping the unpopular Vietnam War that claimed tens of thousands of lives.

King Slain on April 4, 1968

Dr. King was assassinated on April 4, 1968, in Memphis, Tenn. He was posthumously awarded the Presidential Medal of Freedom in 1977 and Congressional Gold Medal in 2004. MLK Jr. Day was established as a U.S. federal holiday and day of service in 1986. Monday, Jan. 15, 2018, was the 32nd nationwide celebration of Dr. King's life and legacy. Martin Luther King, Jr. Day was established as a U.S. federal holiday and day of service in 1986.
